Notes to the Interim Condensed Financial Statements

For the three and nine months ended April 30, 2023 and 2022

(Unaudited, Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Vanadian Energy Corp., (the "Company") was incorporated in the province of British Columbia on April 21, 1999. The Company is publicly listed on the TSX Venture Exchange (the "TSXV") under the symbol "VEC" and its registered and records office is located at 2500 – 700 W. Georgia Street, Vancouver BC, V7Y 1B3. The Company is a Canadian-based exploration company focused on exploring for vanadium deposits in Manitoba. All of the Company's assets are located in Canada. The Company has not generated revenues from operations and is considered to be in the exploration stage.

As at April 30, 2023, the Company had working capital deficiency of \$1,437,851. The Company recorded a net loss of \$147,011 during the nine months ended April 30, 2023, and had total shareholders' deficiency of \$813,875 as at April 30, 2023.

While these financial statements have been prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business, there are conditions that cast significant doubt on the validity of this assumption. The Company's ability to continue as a going concern is dependent on management's capacity to identify additional sources of capital and to raise sufficient resources in order to fund on-going operating expenditures and the Company's development plan. Although management has been successful in the past, there is no assurance these initiatives will be successful in the future. These financial statements do not include adjustments that would be necessary should the Company be unable to continue as a going concern. These conditions cast significant doubt as to the Company's ability to continue as a going concern.

2. BASIS OF PRESENTATION

(a) *Statement of Compliance*

The Company prepares its annual financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board. These interim condensed financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting and follow the same accounting policies and methods of application as the Company's most recent annual financial statements. Accordingly, they should be read in conjunction with the Company's most recent annual financial statements. These interim condensed financial statements were approved by the board of directors on June 27, 2023.

(b) *Basis of Measurement*

The interim condensed financial statements have been prepared on the historical cost basis. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information

(c) *Use of Estimates and Judgments*

The preparation of the interim condensed financial statements in conformity with IAS 34 requires the use of judgments and estimates that affect the amounts reported and disclosed in the financial statements and related notes. These judgments and estimates are based on management's best knowledge of the relevant facts and circumstances, having regard to previous experience, but actual results may differ materially from the amounts included in the consolidated financial statements. For significant estimates and judgements refer to the audited consolidated financial statements for the year ended July 31, 2022.

3. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mineral properties. The Company has investigated title to all of its exploration and evaluation assets, and, to the best of its knowledge, title to all of its properties, are properly registered and in good standing.

a) Huzyk Creek Vanadium Property

On December 12, 2018, the definitive agreement (the "Agreement") was completed, whereby the Company has the right to earn up to 100% interest in the Huzyk Creek Vanadium Property (the "Property") in north-central Manitoba. In December 2019, the Company signed an agreement to amend the terms of the payments as per below.

The Company can earn an initial 49% interest in the Property by making staged payments over three years to Rocas del Norte Incorporated (the "Vendors") totalling \$215,000, issuing 250,000 common shares and a further \$157,500 in common shares and completing \$2,500,000 of exploration on the Property. The staged payments are as follows:

- \$25,000 in cash and 250,000 common shares (paid and issued) on signing;
- \$25,000 in cash, 1,150,000 common shares, and \$250,000 in exploration expenditures (paid, issued and incurred) by December 12, 2019;
- \$25,000 in cash (paid) by June 2020;
- \$60,000 in cash, \$50,000 in common shares and \$750,000 in exploration expenditures by December 12, 2020; and
- \$80,000 in cash, \$50,000 in common shares and \$1,500,000 in exploration expenditures by December 12, 2021.

The Company can earn an additional 21% interest in the Property by making a cash payment of \$125,000, issuing \$50,000 in common shares to the Vendors, and completing \$2,225,000 of exploration on the Property which will include a preliminary economic assessment study by December 12, 2022.

The Company can earn the remaining 30% interest in the Property for a total 100% interest in the Property by completing a pre-feasibility study, along with a cash payment of \$500,000 to the Vendors by December 12, 2024.

The Vendors will retain a 2% Net Smelter Return royalty ("NSR") on the Property. The Company shall have the option to repurchase 1% of this NSR any time for \$1,000,000 in cash or shares. The Company will also have a right of first refusal on the remaining 1% NSR if the Vendors elect to sell this interest.

As at April 30, 2023, \$501,726 has been spent in exploration expenditures (April 30, 2022: \$501,726).

As at April 30, 2023, the Company has not fulfilled the staged payment and exploration expenditures required by December 12, 2020, December 12, 2021, and December 12, 2022 as per the Agreement. The Company has given the Vendors a Force Majeure letter to pause the requirements of the Agreement until COVID-19 issues have been brought under control. The Vendors have acknowledged the Force Majeure letter. As at the date of this report, the Force Majeure letter is still in force and the Agreement is in good standing.

b) Clearwater Project

The Company holds a 25% interest in the Clearwater Project in northern Saskatchewan, which is carried at \$nil.

7. FINANCIAL INSTRUMENTS

Fair values

Cash, sales tax rec, amounts payable and accrued liabilities, and notes payable are held at amortized cost which approximates fair value due to the short-term nature of these instruments.

The Company classifies its fair value measurements in accordance with the three-level fair value hierarchy. The measurement is classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

- | | |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 – | Unadjusted quoted prices in active markets for identical assets or liabilities, |
| Level 2 – | Inputs other than quoted prices that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices), and |
| Level 3 – | Inputs that are not based on observable market data |

The carrying value amount of the Company's financial instruments that are measured at amortized cost approximates fair value due to their short-term nature and market conditions.
